

Certify Your Dreams. Build Your Future

TEACHERS ACADEMY

5+ Branches Across Kerala

1000+ Successful Graduates

10 Years Of Excellence

ABOUT US

Teachers Academy is a leading Teacher Training College dedicated to developing skilled, confident, and future-ready educators. With over 10 years of excellence and 1000+ successful graduates, we have built a strong reputation for quality training and career-focused education. We offer professional programs including Montessori Teacher Training (MTT), ECCE, DECE, TTC, and Early Childhood care and Education courses through both offline and online modes, making learning accessible and flexible for aspiring teachers. Our courses are designed in alignment with the standards of the National Education Policy (NEP), ensuring that our curriculum reflects the latest reforms and modern approaches in education. By following NEP guidelines, we focus on skill development, child-centered learning, and holistic growth — preparing educators for the evolving demands of today's education system.

**Teachers Academy is an Institutional Member
of the Association Montessori Internationale
(AMI).**

VISION

Our vision is to nurture a generation of passionate and confident educators who inspire young minds and create a meaningful impact on society. We aim to build a progressive learning community driven by innovation, creativity, and excellence in education, while developing future-ready teachers who can adapt to evolving global standards. Through quality education and strong values, we aspire to shape educators who lead with purpose and contribute to a better, more informed society.

MISSION

Our mission is to provide high-quality, practical training that bridges the gap between knowledge and real classroom experience. We focus on equipping learners with modern teaching methodologies, digital skills, and strong communication abilities while creating a supportive and flexible learning environment that encourages confidence and growth. By guiding and mentoring our students, we aim to help them build successful, independent, and sustainable careers in the field of education.

MONTESSORI APPARATUS TRAINING AT TEACHERS ACADEMY KERALA

Teachers Academy Kerala equips aspiring educators with in-depth training on Montessori materials. The course covers key apparatus across Practical Life, Sensorial, Language, Mathematics, and Cultural domains, emphasizing hands-on exploration and self-directed learning. Trainees gain practical presentation skills and confidence through demo and practice sessions in our fully-equipped lab. Graduates earn an international Montessori teaching qualification and receive placement support to start rewarding careers

WHAT ARE MONTESSORI MATERIALS?

Montessori apparatus (materials) are carefully designed learning tools for young children

- They make learning tangible by isolating concepts (e.g. sizes, sounds, letters) into manipulatives. These materials span areas like practical life skills, sensorial development, mathematics, language, and cultural studies
- Children engage with each material directly, building skills through play and discovery.

KEY MONTESSORI MATERIALS

Practical Life:

Activities like pouring, spooning, buttoning, or polishing (using simple tools like water pitchers, dressing frames). These develop fine/gross motor skills, coordination, and independence

For example, a pouring exercise teaches concentration and care.

Sensorial:

Materials such as the Pink Tower (ten graduated cubes) and Color Tablets. These refine the senses – dimension (Pink Tower), color discrimination, Texture, sound, and more Children stack blocks to learn size and order, and sort colors to sharpen visual perception.

Language:

Tools include Sandpaper Letters and the Movable Alphabet. Children trace sandpaper letters to learn shapes and sounds, and then use movable letters to build words and sentences. This kinesthetic approach builds phonetic awareness and writing foundations.

Mathematics:

Materials like Number Rods, Sandpaper Numerals, and Golden Beads give a tangible grasp of numbers

For example, golden bead chains illustrate the base-ten system, and number rods help with counting and basic arithmetic operations.

Cultural (Science & Geography):

Items include Continent Map Puzzles, Land & Water Forms, and biology classification charts. These introduce children to geography (assembling continent puzzles) and basic science (sorting plants and animals), fostering a broader understanding of the world.

OUR COURSES

IDMTT (FICS-UK)

International Diploma in Montessori Teacher Training

The International Diploma in Montessori Teacher Training (UK) offers a UK-certified qualification designed for candidates seeking Montessori training with an international academic orientation. Structured in alignment with globally recognized syllabus standards, the program integrates Montessori philosophy, child development, language, mathematics, and sensorial foundations within a comprehensive framework. Extensive hands-on practice using Montessori lab materials forms a central component of the training, developing professional classroom competence. The course prepares educators for structured teaching careers in India and abroad with global credibility.

IDMTT (AMT)

International Diploma in Montessori Teacher Training

The International Diploma in Montessori Teacher Training (IDMTT) prepares aspiring educators for Montessori and early childhood classrooms through a structured and professionally designed program. The course builds strong foundations in Montessori philosophy, child development, practical life, sensorial education, language, and early mathematics. A key highlight of the program is hands-on practical training with authentic Montessori lab materials, strengthening observation, lesson presentation, and classroom management skills. The program ensures confident, career-ready educators aligned with recognized academic standards.

FSE & PRESCHOOL MONTESSORI

Foundational stage of education and Pre-School Montessori

Diploma in FSE & Preschool STEAM Montessori is a government-approved two-year professional program conducted in association with Kerala State RUTRONIX (RUTRONIX), Government of Kerala. The curriculum is aligned with the framework and vision of the National Education Policy (NEP 2020), emphasizing competency-based, child-centered, and experiential learning practices. This program integrates Montessori philosophy with foundational STEM education (Science, Technology, Engineering, and Mathematics) to prepare educators for contemporary preschool and early learning environments. It promotes inquiry-based learning, critical thinking, creativity, and structured academic training while ensuring strong practical classroom exposure.

MMI (LONDON)

International Diploma in Montessori Teacher Training

The International Diploma in Montessori Teacher Training (IDMTT) prepares aspiring educators for Montessori and early childhood classrooms through a structured and professionally designed program. The course builds strong foundations in Montessori philosophy, child development, practical life, sensorial education, language, and early mathematics. A key highlight of the program is hands-on practical training with authentic Montessori lab materials, strengthening observation, lesson presentation, and classroom management skills. The program ensures confident, career-ready educators aligned with recognized academic standards.

INTEGRATED IDMTT

Integrated Diploma in Montessori Teacher Training

This integrated teacher training program offers a comprehensive pathway through Diploma in Early Childhood Care and Education (DECE) or Pre-Primary Teacher Training Course (PPTTC), along with the International Diploma in Montessori Teacher Training (IDMTT) and Remedial Teacher Training Course (RTTC). Rooted in Montessori philosophy, the program emphasizes child-centered learning, sensorial development, and hands-on training with Montessori materials. It also develops essential skills in classroom management and remedial education. ECCE is also a main aspect of this course. The course duration is 11 months, including 2 months of internship. Participants receive internationally accredited 3 certificates ensuring global recognition and strong career opportunities.

PGDMTT

Post Graduate Diploma in Montessori Teacher Training

The Post Graduate Diploma in Montessori Teacher Training (PGDMTT) is an advanced and comprehensive diploma program designed for graduates seeking in-depth specialization in Montessori education. The program extends beyond foundational training, offering expanded academic study in advanced pedagogy, curriculum development, classroom leadership, and institutional management principles. It integrates theoretical depth with structured practical training and supervised internship, preparing educators for senior teaching and leadership roles. The course develops professionally competent educators capable of handling higher academic and administrative responsibilities in Montessori and early childhood institutions.

DECE

Diploma in Early Childhood Care and Education

The Diploma in Early Childhood Care and Education (DECE) is a comprehensive diploma program designed to prepare educators for holistic early childhood development and preschool environments. The program integrates foundational Montessori-based teaching approaches with structured early childhood care principles aligned with recognized academic standards. It focuses on child growth, emotional well-being, foundational literacy and numeracy, and safe learning environments. The course prepares educators to nurture, guide, and support children during their most formative developmental years with professional confidence.

PMTTC

Professional Diploma in Montessori Teacher Training

The Professional Diploma in Montessori Teacher Training (PMTTC) is a structured foundational program designed for candidates who wish to specialize in Montessori teaching with SSLC qualification eligibility. The course introduces core Montessori philosophy, practical life methodology, sensorial activities, and foundational classroom practices aligned with recognized educational standards. It focuses on hands-on training with Montessori materials, structured activity presentation, and classroom readiness. The program prepares aspiring educators to begin their professional journey in Montessori environments with confidence and practical competence.

Arabic Pre-Primary TTC

Arabic Pre-Primary TTC – Arabic Teacher Training Course

Arabic Pre-Primary TTC is a professional teacher training program designed to equip educators with the skills needed to teach the Arabic language to Pre-KG, LKG, and UKG students. The course is comprehensively structured, covering Arabic fundamentals, grammar, Hadees, child psychology, and practical teaching methodologies. With the convenience of online classes and online examinations, this program helps learners build strong teaching competencies and opens up opportunities for Arabic teaching careers both in India and abroad. Live classes as well as recorded sessions will be available for flexible learning.

PPTTC

Pre-Primary Teacher Training Course

The Pre-Primary Teacher Training Course (PPTTC) is a professionally designed program focused on preparing educators for pre-primary and kindergarten classroom environments. The course emphasizes foundational teaching skills, structured activity-based learning, and essential child development principles aligned with recognized educational standards. It combines practical classroom strategies with guided training to build confidence in handling young learners. The program equips trainees with the skills required to manage and conduct pre-primary classes effectively and responsibly.
